Professional Experience:

Full Stack Developer @ BC Get Food Delivery Service

Aug 2018 – Present. Chestnut Hill, MA

- Develop and maintain the BC Get delivery system as well as the deliverer facing web application
- Implement new features such as the deliverer statistics page

Intern @ Clindata Insight Inc.

June – Aug 2017. Moraga, CA

- Developed and maintained a python script that cleans LinkedIn connections data and produces an Excel dashboard, providing useful tracking information and statistical analysis of Clindata clients
- Improved productivity and efficiency of HR team

Projects:

React Blogging Platform

May – August 2018

- Full Stack Single Page Application built with React, Node.js, MongoDB, Apollo, and Auth0
- Fully functional blog featuring users and administrators
- Currently deployed as a business facing app for Genome Compass

Better BC Housing @ Hack The Heights 2018

April 2018

- Reinvents the obsolete housing selection system at Boston College with a React, Node, and MongoDB single page web application
- Beautiful and interactive map interface where students can navigate to buildings and rooms of choice.
- Accommodates live room picking, giving students real time feedback during the selection process
